When I went to the CFK website and saw the potential of what Randy has the ability to create, I knew I wanted that level of "wow" factor for our new kid's wing. But, due to budgets and building expenses, I didn't know how we could possibly do it. From the very first time I called CFK, I was encouraged and supported. I so appreciated Randy's willingness to coach me for free! He had me send him our floor plan and pictures and talked me through all of the different cost options for a project our size. As far as cutting costs, he helped me understand what we could do ourselves, and what he could do as far as the finishing touches to get the results we wanted.

During the project Randy was so great. He continued to be completely available by phone and email. He gave me support and wisdom on several details... how to separate the buildings, skyline, ending the sidewalk, paint colors, etc. I would call with "what about this" or "how do I do that" and he always brought encouragement and direction all along the way. We still had not locked him in, and he still served us with no pressure sales at all. When we were within weeks of completion, I could tell that we were not going to be able to achieve the excellence level that I knew only Randy and his air brush could bring. He had me send pictures again of what we had done and then gave us a quote for our main area's. We hired him and he showed up right on schedule.

It was so easy to work with him because he brought in his own equipment, took care of all his travel and lodging needs, and bought all of the supplies. I really appreciated it all being included with the quote he had given. There were no hidden costs. Once he was on site, my job was finished and I could just relax and let Randy take what we had done and bring it to another level!! We are sooooo thankful for Randy's heart and willingness to serve us in this project. There is no way we could have done it without him! He knows what he is doing and his experience and skill made all the difference. Working with CFK was a blessing from start to finish, and we would highly recommend CFK to anyone who wants to truly create the "wow" factor for your kid's areas. Ours came out even better than we imagined!
